OC RDC v5.0.1  New Functionality and Enhancements
Logging into RDC Onsite

- Login screen is the same as the one in RDC Onsite 4.5.3
- If a user has the Compatibility View mode switched on in Internet Explorer, the user will receive the following error

![Message from webpage]

The current compatibility setting is not supported. Disable Compatibility View before running this web page.

Click on OK to display the normal login screen
Differences

- ‘Go’ buttons were removed – system automatically refreshes to the selected value

- Study and Site drop-down menus were moved to the left; “Select Patients and...” has been changed to “Action”
Navigation

Selecting individual patients

Shift-click and Ctrl-click now provides a faster way to select multiple records

- Checkboxes have been removed
- To select multiple patients hold the Shift or Ctrl key and click on the patient rows to select multiple patients:

![Patient Search]

**Note:** The shown patient selection was done using the Ctrl key. If the Shift key was used, patient 10011002 would have been included in the selection.

Selecting all patients

![Patient Search]

Clicking on the column with the patient icon selects all Patients
**OC RDC Surround**

- All RDC Onsite Surround pages will have a new, more esthetically pleasing look and feel
- Continuous scrolling on all pages replaces the Next / Prev controls to view another set of records – scrollbars to the right of the screen are available

**Note:** If the user scrolls down to the end of the list and more patient positions are needed, contact the Pfizer EDC helpdesk – phone: 1-877-433-2619, email: edcsupport@pfizer.com.
Single Patient Casebook Page

In the Patient Casebook Page, a user can now toggle between the Multiple view, which is the traditional view showing records for multiple patients at a single visit, and the new Single view, which shows the CRFs for a single patient at multiple visits

Group Approve

- The Group Approve sequences includes fewer dialogs, requiring fewer clicks to accomplish the action – select patient(s), Action: ‘Review CRFs’

- When the list of CRFs display, click on the “Patient Number” column to select all CRFs. If the first click sorts the CRFs by patient, click again to highlight all patients

- From the Action drop-down menu choose ‘Approve’
**Discrepancy Management related Enhancements**

- If manual discrepancies exist, the role of the user who created the discrepancy will now display in the discrepancy management pane on the CRF.

- The user can view the discrepancies based on your role
- The user can answer or route a discrepancy that is not active for the user

**Other New Functionality**

- **Enhanced eCRF Browsing from the Review tab**

  If CRFs are opened from the Review pages (CRFs, Discrepancies, Investigator Comments and Special Listings), the user will be able to open the Next or Previous CRF in the list without returning to the Review page.
  The new Single Patient Casebook page also provides this functionality. The previous RDC version provided this capability only when the CRF was opened from the Patient Casebooks page.

- **Support for Long Data Entry Comments and Narratives**

  RDC Onsite data entry now supports capturing long comments and narratives. These extended text fields hold up to 10,000 characters.
Logout Page Elements

• Logout Link

The Logout link in RDC will now also be located on the bottom of the page as well as in the links at the top of the page.

Note: Incorrect logout may cause the following error: “Please open browser in new session mode” when trying to log back into RDC Onsite. To resolve the issue close all browser windows and open a new one or go to File menu in IE and choose ‘New Session’.

• The Logout page in RDC Onsite includes a link back to the Login page

You are successfully logged out. Click here to log in again.

• The word here in the displayed screenshot and below messages is a hyperlink that will route the user back to the Login page
  – “You are successfully logged out. Click here to log in again.”
  – “Your session timed out. Click here to log in again.”
  – “Your Password has been changed successfully. Click here to log in with new credentials.”
OC RDC Helpdesk Support

If a user requires assistance with RDC Onsite, contact the Pfizer EDC Helpdesk at:

- *Phone for US and Canada (toll-free):* (+1) 877-433-2619
- *Email:* edcsupport@pfizer.com
